Examination Policy

Greenfield Institute of Technology | Academic Year 2026–2027

1. Examination Framework

The examination policy applies to internal assessments, practical examinations, and end-semester examinations conducted by Greenfield Institute of Technology. Examination schedules are published through the Examination Cell and the Academic Information System.

2. Examination Eligibility

Students must satisfy the applicable attendance and academic requirements before appearing for an end-semester examination. The final eligibility list is prepared by the Examination Cell using official academic records.

3. Examination Registration

Eligible students must complete examination registration within the published registration period. A student should verify registered courses, examination centers, and personal details before the deadline.

4. Examination Hall Entry

Students should report to the examination hall at least 20 minutes before the scheduled start. Entry may be restricted after the first 30 minutes unless the Chief Superintendent permits otherwise under the examination rules.

5. Permitted Materials

Only materials specifically permitted in the examination instructions may be carried into the examination hall. Electronic devices such as mobile phones, smart watches, and unauthorized calculators are prohibited unless the examination instructions explicitly permit a particular device.

6. Identification

Students must carry their institutional identity card and examination hall ticket. A student who cannot produce the required identification should immediately contact the examination supervisor.

7. Absence From Examination

A student who misses an examination should contact the Examination Cell within **24 hours** of the scheduled examination. The student must provide a written explanation and supporting evidence when requesting consideration for a special examination.

8. Special Examination

A special examination may be considered for documented medical emergencies or other circumstances recognized by the Examination Committee. Approval is discretionary under the examination regulations and is not guaranteed merely because an application was submitted.

9. Academic Integrity

Students must follow examination instructions and must not copy, communicate with other candidates, possess unauthorized materials, impersonate another student, or use unauthorized electronic assistance. Suspected malpractice is reported to the Examination Committee for review.

10. Re-Examination

Where permitted by the academic regulations, a student may register for a supplementary or repeat examination during the designated examination period. The applicable fee, registration window, and eligibility conditions are announced by the Examination Cell.

11. Results and Revaluation

Examination results are published through the Academic Information System. A student may apply for revaluation or answer-script verification where that option is available for the relevant examination. The request must be submitted within the announced deadline.

12. Result Corrections

Errors in personal details or marks should be reported to the Examination Cell with supporting evidence. Administrative correction and academic revaluation are separate processes.

13. Quick Reference

Item	Rule
Hall reporting	At least 20 minutes before start
Late entry	May be restricted after first 30 minutes
Missed examination notice	Contact Examination Cell within 24 hours
Mobile phones	Not permitted unless explicitly authorized
Revaluation	Available only where announced for the relevant examination

14. Scope Limitation

This document does not specify casual leave entitlement, hostel food menus, hostel entry timings, professor salaries, transportation fees, or placement statistics.

Synthetic examination policy for RAG retrieval and abstention testing.
