

Student Leave Policy

Greenfield Institute of Technology | Academic Year 2026–2027

1. Purpose and Scope

The Student Leave Policy applies to all undergraduate students enrolled at Greenfield Institute of Technology for the academic year 2026–2027. The policy defines ordinary leave, emergency leave, medical leave, and attendance-related procedures. Leave approval does not automatically remove the requirement to satisfy minimum attendance for a course.

2. Types of Leave

Students may request Casual Leave for personal reasons, Medical Leave when illness prevents attendance, and Emergency Leave for unexpected family or personal circumstances. Leave must be requested through the Student Portal unless the student is unable to access the portal because of an emergency.

3. Annual Casual Leave

Each student may request up to **12 working days of casual leave per academic year**. Casual leave is normally limited to two consecutive working days unless the Head of Department approves an exception. Unused casual leave does not carry forward to the next academic year and cannot be converted into a cash benefit.

4. Weekend and Holiday Rule

Saturdays, Sundays, and declared institutional holidays are not deducted from a casual-leave balance when they fall between approved leave dates, unless the approved leave request explicitly covers an examination or compulsory institutional activity.

5. Applying for Leave

Students should submit a leave request through the Student Portal before 8:30 a.m. on the first day of absence. The request must include the dates, reason, contact information, and the courses likely to be missed. A request submitted after the absence is considered retrospective leave and requires additional justification.

6. Approval Authority

Casual leave of one or two working days may be approved by the Class Advisor. Casual leave exceeding two consecutive working days requires approval from the Head of Department. Medical leave exceeding five working days requires review by the Student Welfare Officer in addition to departmental approval.

7. Medical Leave

For medical leave of three or more consecutive working days, the student must upload a signed medical certificate from a registered medical practitioner. The certificate should state the dates during which the student was advised to avoid academic activity. A medical certificate does not guarantee attendance condonation.

8. Emergency Leave

When an emergency prevents advance submission, the student or parent/guardian should notify the Class Advisor within 24 hours. The formal leave request must be submitted within two working days after the student returns.

9. Leave During Examinations

Leave during internal or end-semester examinations is governed separately from ordinary class leave. A student who misses an examination must contact the Examination Cell within 24 hours and provide supporting documentation where applicable. Approval for a re-examination depends on the examination regulations and is not automatic.

10. Attendance and Leave

Approved leave records are maintained separately from attendance records. Students are responsible for checking their attendance after returning from leave. A student may have approved leave and still fall below the minimum attendance requirement if too many classes are missed.

11. Retrospective Requests

Retrospective leave should be used only when advance submission was not reasonably possible. Repeated retrospective requests may be reviewed by the Head of Department. False information or altered supporting documents may result in disciplinary action.

12. Appeals

A student whose leave request is rejected may submit an appeal to the Department Review Committee within three working days of receiving the decision. The appeal should identify the reason for disagreement and include any additional supporting evidence.

13. Quick Reference

Leave type	Main rule
Casual Leave	Maximum 12 working days per academic year
Casual Leave duration	Normally no more than 2 consecutive working days
Medical Leave	Certificate required for 3 or more consecutive working days
Emergency Leave	Notify advisor within 24 hours; formal request within 2 working days after return
Appeal	Submit to Department Review Committee within 3 working days

14. Important Clarification

This policy does not specify hostel leave, hostel entry/exit timings, examination grading rules, tuition fees, transport charges, placement statistics, or staff salary information. Those matters are covered by other institutional documents or administrative offices.
